Warrior Met Coal Announces Second Quarter 2017 Results

Aug 03, 2017

Reports strong cash flow generation on sales volume increase of 72% to 1.9 million short tons

Records net income of $129.9 million and Adjusted EBITDA of $188.5 million

BROOKWOOD, Ala.--(BUSINESS WIRE)-- Warrior Met Coal, Inc. (NYSE:HCC) (“Warrior” or the “Company”) today announced results for the second quarter ended June 30, 2017. Warrior is the leading dedicated U.S. based producer and exporter of high quality metallurgical (“met”) coal for the global steel industry.

Warrior reported second quarter 2017 net income of $129.9 million, or $2.46 per diluted share, compared to $108.3 million, or $2.06 per diluted share, in the first quarter of 2017. Excluding certain transaction costs related to the Company’s initial public offering, Adjusted Net Income was $132.9 million, or $2.52 per diluted share, in the second quarter of 2017. The Company reported Adjusted EBITDA of $188.5 million in the second quarter of 2017, a 39% increase over the first quarter. During the second quarter of 2017, the market for high quality premium met coal was very volatile with global supply disruptions and the benchmark pricing system being replaced by an indexation methodology. Warrior was able to capitalize on this market volatility with respect to both sales volumes and pricing as its second quarter net realized selling prices were 103% of the second quarter of 2017 industry average index price. Warrior's price realization reflects its high quality premium product and unique go-to-market strategy.

“Warrior’s highly successful second quarter validates our value proposition as the only publicly traded ‘pure-play’ hard coking coal operator in the U.S.,” commented Walt Scheller, CEO of Warrior. “Robust sales volume growth in a strong price environment resulted in a 167% increase in our free cash flow compared to the first quarter. We believe our ability to significantly grow our sales while maintaining our exceptionally low cost structure will enable us to carry forward this strong performance over the remainder of the year.”

Operating Results

Warrior continued to make progress in the ramp up of mining operations toward its historical annual production level of approximately 8.0 million short tons. The Company produced 1.9 million short tons of met coal in the second quarter of 2017, which represented an increase of 18% over the first quarter of 2017. “Our mining operations have continued to grow as we move closer to achieving the nameplate production capacity in our two mines,” added Mr. Scheller. “As we continue to refine and improve our operations, I believe Warrior has a great opportunity to increase production profitably in response to market demand and generate significant free cash flow.”

Additional Financial Results

Total revenues were $363.4 million for the second quarter of 2017, including $351.8 million in mining revenues, which consisted of met coal sales of 1.9 million short tons at an average selling price of $181.14 per short ton. Sales volume increased 72% over the second quarter of 2016 and increased 55% for the first six months of 2017 over the same period in 2016.

Cost of sales for the second quarter of 2017 were $160.2 million, or 44.1% of total revenues, and includes mining costs, transportation and royalty costs. Cash cost of sales (free-on-board port) per short ton decreased by $11.53 to $82.22 in the second quarter compared to the first quarter of 2017. Selling, general and administrative expenses for the second quarter of 2017 were $8.7 million, or 2.4% of total revenues. Depreciation and depletion costs for the second quarter of 2017 were $19.7 million, or 5.4% of total revenues. Transaction and other costs associated with the Company’s initial public offering

decreased to $3.8 million for the second quarter of 2017. Warrior incurred interest expense of $0.6 million and recognized income tax expense of $32.8 million for the second quarter of 2017.

Cash Flow and Liquidity

The Company generated strong cash flows from operating activities in the second quarter of 2017 of $161.4 million. Net working capital decreased by $12.8 million from the first quarter of 2017. Capital expenditures for the second quarter 2017 were $16.9 million, resulting in free cash flow of $144.5 million, which was $90.3 million higher than in the first quarter. Cash flows used in financing activities were $3.4 million for the second quarter of 2017.

The Company's available liquidity as of the end of the quarter was $255.8 million, consisting of cash and cash equivalents of $155.8 million and $100.0 million available under its Asset-Based Revolving Credit Agreement.

Company Outlook

In light of the second quarter performance, Warrior is reiterating its guidance for the full year 2017 as follows:

Coal sales	5.9 - 6.3 million short tons
Coal production	6.1 - 6.5 million short tons
Cash cost of sales (free-on-board port)	$89 - $95 per short ton
Capital expenditures	$97 - $117 million
Selling, general and administrative expenses	$26 - $29 million

Factors that may affect outlook include:

- Hard coking coal index pricing

- Number of longwall operation moves and timing of those moves between quarters. The following are the expected longwall moves for the remainder of 2017: Q3 - 1 move, Q4 - 2 moves.

- Excludes transaction or other non-recurring costs

The Company does not provide reconciliations of its outlook for cash cost of sales (free-on-board port) to cost of sales in reliance on the unreasonable efforts exception provided for under Item 10(e)(1)(i)(B) of Regulation S-K. The Company is unable, without unreasonable efforts, to forecast certain items required to develop the meaningful comparable GAAP cost of sales. These items typically include non-cash asset retirement obligation accretion expenses, mine idling expenses and other non-recurring indirect mining expenses that are difficult to predict in advance in order to include a GAAP estimate.

Use of Non-GAAP Financial Measures

This release contains the use of certain U.S. non-GAAP ("Generally Accepted Accounting Principles") financial measures. These non-GAAP financial measures are provided as supplemental information for financial measures prepared in accordance with GAAP. Management believes that these non-GAAP financial measures provide additional insights into the performance of the Company, and they reflect how management analyzes Company performance and compares that performance against other

companies. These non-GAAP financial measures may not be comparable to other similarly titled measures used by other entities. The definition of these non-GAAP financial measures and a reconciliation of non-GAAP to GAAP financial measures is provided in the financial tables section of this release.

Conference Call

The Company will hold a conference call to discuss its second quarter 2017 results today, August 3, 2017, at 4:30 p.m. ET. To listen to the event live or access an archived recording, please visit http://investors.warriormetcoal.com/.

Analysts and investors who would like to participate in the conference call should dial 1-866-807-9684 (domestic) or 1-412-317-5415 (international) 10 minutes prior to the start time and reference the Warrior Met Coal conference call.

Telephone playback will also be available from 7:30 p.m. ET August 3, 2017 through midnight ET on September 5, 2017. The replay will be available by calling: 1-877-344-7529 (domestic) or 1-412-317-0088 (international) and entering passcode 10109914.

About Warrior Met Coal

Warrior Met Coal is a large scale, low-cost U.S. based producer and exporter of premium hard coking coal ("HCC"), operating highly efficient longwall operations in its underground mines located in Alabama. The HCC that Warrior produces from the Blue Creek coal seam contains very low sulfur and has strong coking properties and is of a similar quality to coal referred to as the HCC produced in Australia. The premium nature of Warrior's HCC makes it ideally suited as a base feed coal for steel makers and results in price realizations near the HCC industry index average. Warrior sells all of its met coal production to steel producers in Europe, South America and Asia. For more information about Warrior Met Coal, please visit www.warriormetcoal.com.

Forward-Looking Statements

This press release contains, and the Company's officers and representatives may from time to time make, forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended.All statements, other than statements of historical facts, included in this press release that address activities, events or developments that the Company expects, believes or anticipates will or may occur in the future are forward-looking statements.The words "believe," "expect," "anticipate," "plan," "intend," "estimate," "project," "target," "foresee," "should," "would," "could," "potential," or other similar expressions are intended to identify forward-looking statements. However, the absence of these words does not mean that the statements are not forward-looking. These forward-looking statements represent management's good faith expectations, projections, guidance or beliefs concerning future events, and it is possible that the results described in this press release will not be achieved.These forward-looking statements are subject to risks, uncertainties and other factors, many of which are outside of the Company's control, that could cause actual results to differ materially from the results discussed in the forward-looking statements, including, without limitation, fluctuations or changes in the pricing or demand for the Company's coal (or met coal generally) by the global steel industry; legislation and regulations relating to the Clean Air Act and other environmental initiatives; regulatory requirements associated with federal, state and local regulatory agencies, and such agencies' authority to order temporary or permanent closure of the Company's mines; operational, logistical, geological, permit, license, labor and weather-related factors, including equipment, permitting, site access, operational risks and new technologies related to mining; the Company's obligations surrounding reclamation and mine closure; inaccuracies in the Company's estimates of its met coal reserves; the Company's ability to develop or acquire met coal reserves in an economically feasible manner; significant cost increases and fluctuations, and delay in the delivery of raw materials, mining equipment and purchased components; competition and foreign currency fluctuations; fluctuations in the amount of cash the Company generates from operations, including cash necessary to pay any special or quarterly dividend or to initiate a stock repurchase program; the Company's ability to comply with covenants in its credit facility; integration of businesses that the Company may acquire in the future; adequate liquidity and the cost, availability and access to capital and financial markets; failure to obtain or renew surety bonds on acceptable terms, which could

affect the Company's ability to secure reclamation and coal lease obligations; costs associated with litigation, including claims not yet asserted; and other factors described in the Company's filings with the U.S. Securities and Exchange Commission ("SEC"), including its Registration Statement on Form S-1 (File No. 333-216499) and Form 10-Q for the quarterly period ended June 30, 2017 and other reports filed from time to time with the SEC, which could cause the Company's actual results to differ materially from those contained in any forward-looking statement. The Company's filings with the SEC are available on its website at www.warriormetcoal.com and on the SEC's website at www.sec.gov.

Any forward-looking statement speaks only as of the date on which it is made, and, except as required by law, the Company does not undertake any obligation to update or revise any forward-looking statement, whether as a result of new information, future events or otherwise.New factors emerge from time to time, and it is not possible for the Company to predict all such factors.

Note Regarding "Predecessor" Comparisons

The Company's results on a "Predecessor" basis relate to the assets acquired and liabilities assumed by Warrior Met Coal, LLC from Walter Energy, Inc. in the asset acquisition described in the Company's Registration Statement on Form S-1 (File No. 333-216499) and the related periods ending on or prior to March 31, 2016. The Company's results on a "Successor" basis relate to Warrior Met Coal, LLC and its subsidiaries for periods beginning as of April 1, 2016 and Warrior Met Coal, Inc. after giving effect to its corporate conversion on April 12, 2017 from a Delaware limited liability company into a Delaware corporation. The historical costs and expenses reflected in the Predecessor combined results of operations include an allocation for certain corporate functions historically provided by Walter Energy, Inc. Certain functions critical to the Predecessor's operations were centralized and managed by Walter Energy, Inc. Historically, the centralized functions have included executive senior management, financial reporting, financial planning and analysis, accounting, shared services, information technology, tax, risk management, treasury, legal, human resources, and strategy and development. The costs of each of these services has been allocated to the Predecessor on the basis of the Predecessor's relative headcount, revenue and total assets to that of Walter Energy, Inc.

Other (operating overhead, etc.)	—	(3,614)	—	(7,843
Cash cost of sales (free on board port)[(3)]	$159,676	$ 69,643	$265,339	$ 54,188

(3) Cash cost of sales (free on board port) is based on reported cost of sales and includes items such as freight, royalties, labor, fuel and other similar production and sales cost items, and may be adjusted fo other items that, pursuant to GAAP, are classified in the Condensed Statements of Operations as cost other than cost of sales, but relate directly to the costs incurred to produce met coal. Our cash cost o sales per short ton is calculated as cash cost of sales divided by the short tons sold. Cash cost of sales per short ton is a non-GAAP financial measure which is not calculated in conformity with U.S. Generally Accepted Accounting Principles (GAAP) and should be considered supplemental to, and not as a substitute or superior to financial measures calculated in conformity with GAAP. We believe cash cost of sales per ton is a useful measure of performance and we believe it aids some investors and analysts in comparing us against other companies to help analyze our current and future potential performance. Cash cost of sales per ton may not be comparable to similarly titled measures used by other companies.

Transaction and other costs	3,837	10,475	12,873	—
Reorganization items, net	—	—	—	(7,920

Restructuring costs	—	—	—	3,418
Mine No. 4 idle costs	—	5,342	—	10,173
VEBA contribution	—	25,000	—	—
Adjusted EBITDA (4)	$188,482	$ 8,073	$323,947	$ (9,048

(4) Adjusted EBITDA is defined as net income (loss) before net interest expense, income tax expense, depreciation and depletion, non-cash asset retirement obligation accretion, non-cash stock compensation expense, transaction and other costs, net reorganization items, restructuring costs, Voluntary Employees' Beneficiary Association ("VEBA") contribution and Mine No. 4 idle costs. Adjuste EBITDA is not a measure of financial performance in accordance with GAAP, and we believe items excluded from Adjusted EBITDA are significant to a reader in understanding and assessing our financi condition. Therefore, Adjusted EBITDA should not be considered in isolation, nor as an alternative to r income, income from operations, cash flows from operations or as a measure of our profitability, liquidity or performance under GAAP. We believe that Adjusted EBITDA presents a useful measure of c ability to incur and service debt based on ongoing operations. Furthermore, analogous measures are used by industry analysts to evaluate our operating performance. Investors should be aware that our presentation of Adjusted EBITDA may not be comparable to similarly titled measures used by other companies.

RECONCILIATION OF ADJUSTED NET INCOME TO AMOUNTS REPORTED UNDER U.S. GAAP:

	Successor (Unaudited)			Predecess

Total stockholders' equity	797,120	752,967
Total liabilities and stockholders' equity	$ 1,010,361	$ 947,631

(1) On April 12, 2017, in connection with the Company's initial public offering ("IPO"), Warrior Met Coal, LLC filed a certificate of conversion, whereby Warrior Met Coal, LLC effected a corporate conversion from a Delaware limited liability company to a Delaware corporation and changed its name to Warrior Met Coal, Inc. In connection with this corporate conversion, the Company filed a certificate of incorporation. Pursuant to the Company's certificate of incorporation, the Company is authorized to issue up to 140,000,000 shares of common stock, $0.01 par value per share, and 10,000,000 shares of preferred stock, $0.01 par value per share. The number of shares and per share amounts of common stock have been retroactively recast to reflect the corporate conversion.
