A webcast of the conference call will be available through the Investor section of the Warrior Met Coal website at http://investors.warriormetcoal.com where an archived replay will also be available through midnight ET June 18, 2017.

Telephone playback will also be available beginning at 7:30 p.m. ET May 18, 2017 through midnight ET June 18, 2017. The replay will be available by calling: 1-877-344-7529 (domestic) or 1-412-317-0088 (international) and entering passcode 10107326.

Warrior Met Coal is a large-scale, low-cost U.S. based producer and exporter of premium hard coking coal (“HCC”) operating highly efficient longwall operations in its underground mines located in Alabama. The HCC that Warrior produces from the Blue Creek coal seam contains very low sulfur and has strong coking properties, and is of a similar quality to coal referred to as the benchmark HCC produced in Australia. The premium nature of Warrior’s HCC makes it ideally suited as a base feed coal for steel makers and results in price realizations near the HCC benchmark. Warrior sells all of its met coal production to steel producers in Europe, South America and Asia. For more information about Warrior Met Coal, please visit www.warriormetcoal.com.
