

# Warrior Met Coal Reports First Quarter 2021 Results

May 05, 2021

*Maintains positive cash flow despite difficult pricing environment*

BROOKWOOD, Ala.--(BUSINESS WIRE)-- Warrior Met Coal, Inc. (NYSE: HCC) ("Warrior" or the "Company") today announced results for the first quarter of 2021. Warrior is the leading dedicated U.S. based producer and exporter of high quality metallurgical ("met") coal for the global steel industry.

Warrior reported a net loss for the first quarter of 2021 of \$21.4 million, or \$0.42 per diluted share, compared to net income of \$21.5 million, or \$0.42 per diluted share, in the first quarter of 2020. Adjusted net income per share for the first quarter of 2021 was \$0.08 per diluted share compared to adjusted net income per share of \$0.39 per diluted share in the first quarter of 2020. The Company reported Adjusted EBITDA of \$47.1 million in the first quarter of 2021, compared to Adjusted EBITDA of \$62.0 million in the first quarter of 2020.

"During the first quarter, we saw COVID-19 and the Chinese ban on Australian coal have a continued impact on both pricing and demand across the met coal industry," commented Walt Scheller, CEO of Warrior. "However, we remained focused on successfully managing our costs, working capital and capex spending, which enabled us to be free cash flow positive despite these headwinds."

Mr. Scheller continued, "The end of the first quarter also coincided with the expiration of our Collective Bargaining Agreement with the United Mine Workers of America on April 1. While we continue to negotiate in good faith with the UMWA to reach a new contract, the UMWA has chosen to initiate a strike."

"Importantly, we have business continuity plans in place to continue meeting the needs of our valued customers during this time."

## Operating Results

The Company produced 2.2 million short tons of met coal in the first quarter of 2021 compared to 2.1 million short tons in the first quarter of 2020. Sales volume in the first quarter of 2021 was 2.0 million short tons compared to 1.8 million short tons in the first quarter of 2020. Inventory levels rose to 1.2 million short tons at the end of March 31, 2021 from the 998 thousand short tons at the end of 2020.

## Additional Financial Results

Total revenues were \$213.8 million for the first quarter of 2021, including \$207.0 million in mining revenues, which consisted of met coal sales of 2.0 million short tons at an average net selling price of \$106.04 per short ton, net of demurrage and other charges. This compares to total revenues of \$226.7 million in the first quarter of 2020. The average net selling price of the Company's met coal declined 13% from \$122.02 per short ton in the first quarter of 2020 to \$106.04 per short ton in the first quarter of 2021. During the first quarter of 2021, the Company averaged a met coal selling price of \$106.04 per short ton, which corresponds to 95% of the quarterly Australian premium low-volatility hard coking coal ("HCC") Platts Premium LV FOB Australian Index (the "Platts Index") price for the same period. The year-over-year decline in revenues and profits is primarily attributed to weaker met coal pricing in challenging market conditions associated with the impact of COVID-19 and the Chinese ban on Australian coal.

Cost of sales for the first quarter of 2021 was \$154.4 million compared to \$151.5 million for the first quarter of 2020. Cash cost of sales (including mining, transportation and royalty costs) for the first quarter of 2021 were \$153.5 million, or 74.2% of mining revenues, compared to \$150.7 million, or 68.1% of mining revenues in the same period of 2020. Cash cost of sales (free-on-board port) per short ton decreased to \$78.64 in the first quarter of 2021 from \$83.07 in the first quarter of 2020, reflecting

Warrior's low and variable cost structure and focus on cost control during periods of depressed met coal prices.

Selling, general and administrative expenses for the first quarter of 2021 were \$7.6 million, or 3.6% of total revenues, and were 9.7% lower than in the same period last year. Depreciation and depletion costs for the first quarter of 2021 were \$32.9 million, or 15.4% of total revenues, and were 14.7% higher than in the same period last year. Warrior incurred net interest expense of \$8.7 million during the first quarter of 2021, which was higher than the same quarter last year due to interest on our ABL draw and lower returns on our cash balances.

Income tax expense was \$23.6 million in the first quarter of 2021 due to a noncash charge recognized upon the establishment of a valuation allowance against our state deferred income tax assets. This result was due to a change in Alabama tax law on February 12, 2021, which became effective January 1, 2021, and required all sales originating in Alabama and delivered to a jurisdiction where the seller is not subject to tax to be excluded from Alabama taxable income without the need to utilize our Alabama net operating losses. This compares to income tax expense of \$3.2 million in the first quarter of 2020.

### **Cash Flow and Liquidity**

The Company generated positive cash flows from operating activities in the first quarter of 2021 of \$45.2 million, compared to \$21.0 million in the first quarter of 2020. Capital expenditures and mine development costs for the first quarter of 2021 were \$21.8 million. Free cash flow was positive at \$23.4 million in the first quarter of 2021 reflecting our conscious management of expenses and spending while balancing longer term capital investments.

Net working capital, excluding cash, for the first quarter of 2021 decreased by \$764,000 from the fourth quarter of 2020. This decrease reflects an increase in coal inventory of approximately 200,000 short tons offset by other working capital decreases.

Cash flows used in financing activities for the first quarter of 2021 were \$13.4 million, primarily due to principal repayments of capital lease obligations of \$8.2 million and the payment of dividends of \$2.6 million.

The Company's total liquidity as of March 31, 2021 was \$272.0 million, consisting of cash and cash equivalents of \$221.9 million and available liquidity under its ABL Facility of \$50.1 million, net of outstanding letters of credit of \$9.4 million.

### **Capital Allocation**

On April 27, 2021, the board of directors declared a regular quarterly cash dividend of \$0.05 per share, totaling approximately \$2.6 million, which will be paid on May 12, 2021 to stockholders of record as of the close of business on May 7, 2021.

### **Collective Bargaining Agreement**

The Company's Collective Bargaining Agreement ("CBA") contract with the United Mine Workers of America ("UMWA") expired on April 1, 2021, and the UMWA initiated a strike. The Company believes that it is well positioned to fulfill anticipated customer volume commitments for 2021 of approximately 4.9 to 5.5 million short tons through a combination of existing coal inventory of 1.2 million short tons and expected production during the rest of 2021. For now, Warrior has idled Mine 4. It expects production to continue at Mine 7, although at lower than usual rates. While the Company has business continuity plans in place, the strike may still cause disruption to production and shipment activities, and the plans may vary significantly from quarter to quarter in 2021.

### **Company Outlook**

Due to ongoing uncertainty related to negotiations with the UMWA, the COVID-19 pandemic, the Chinese ban on Australian coal and other potentially disruptive factors, Warrior will not be providing full year 2021 guidance at this time. The Company expects to return to providing guidance once there is further clarity on these issues.

Warrior continues to appropriately adjust its operational needs, including managing expenses, capital expenditures, working capital, liquidity and cash flows. The Company has delayed the development of

the Blue Creek project and its Stock Repurchase Program also remains temporarily suspended, while it focuses on preserving cash and liquidity.

### Use of Non-GAAP Financial Measures

This release contains the use of certain non-GAAP financial measures. These non-GAAP financial measures are provided as supplemental information for financial measures prepared in accordance with GAAP. Management believes that these non-GAAP financial measures provide additional insights into the performance of the Company, and they reflect how management analyzes Company performance and compares that performance against other companies. These non-GAAP financial measures may not be comparable to other similarly titled measures used by other entities. The definition of these non-GAAP financial measures and a reconciliation of non-GAAP to GAAP financial measures is provided in the financial tables section of this release.

### Conference Call

The Company will hold a conference call to discuss its first quarter 2021 results today, May 5, 2021, at 4:30 p.m. ET. To listen to the event, live or access an archived recording, please visit <http://investors.warriormetcoal.com/>. Analysts and investors who would like to participate in the conference call should dial 1-844-340-9047 (domestic) or 1-412-858-5206 (international) 10 minutes prior to the start time and reference the Warrior Met Coal conference call. Telephone playback will also be available from 6:30 p.m. ET May 5, 2021 until 6:30 p.m. ET on May 19, 2021. The replay will be available by calling: 1-877-344-7529 (domestic) or 1-412-317-0088 (international) and entering passcode 10152949.

### About Warrior

Warrior is a U.S.-based, environmentally and socially minded supplier to the global steel industry. It is dedicated entirely to mining non-thermal met coal used as a critical component of steel production by metal manufacturers in Europe, South America and Asia. Warrior is a large-scale, low-cost producer and exporter of premium met coal, also known as hard-coking coal (HCC), operating highly efficient longwall operations in its underground mines based in Alabama. The HCC that Warrior produces from the Blue Creek coal seam contains very low sulfur, has strong coking properties and is of a similar quality to coal referred to as the premium HCC produced in Australia. The premium nature of Warrior's HCC makes it ideally suited as a base feed coal for steel makers and results in price realizations near the Platts Index price. For more information, please visit [www.warriormetcoal.com](http://www.warriormetcoal.com).

### Forward-Looking Statements

*This press release contains, and the Company's officers and representatives may from time to time make, forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended and Section 21E of the Securities Exchange Act of 1934, as amended. All statements, other than statements of historical facts, included in this press release that address activities, events or developments that the Company expects, believes or anticipates will or may occur in the future are forward-looking statements, including statements regarding the impact of COVID-19 on its business and that of its customers, sales and production growth, ability to maintain cost structure, demand, the future direction of prices, management of liquidity, cash flows, expenses and expected capital expenditures and working capital, future effective income tax rates and payment of cash taxes, if any, as well as statements regarding production, our ability to fulfill expected customer orders and the outcome of negotiations with our labor union. The words "believe," "expect," "anticipate," "plan," "intend," "estimate," "project," "target," "foresee," "should," "would," "could," "potential," "outlook," "guidance" or other similar expressions are intended to identify forward-looking statements. However, the absence of these words does not mean that the statements are not forward-looking. These forward-looking statements represent management's good faith expectations, projections, guidance or beliefs concerning future events, and it is possible that the results described in this press release will not be achieved. These forward-looking statements are subject to risks, uncertainties and other factors, many of which are outside of the Company's control, that could cause actual results to differ materially from the results discussed in the forward-looking statements, including, without limitation, fluctuations or changes in the pricing or demand for the Company's coal (or met coal generally) by the global steel industry; the impact of COVID-19 on its business and that of its customers, including the risk of a decline in demand for the Company's met coal due to the impact of COVID-19 on steel manufacturers, the inability of the Company to effectively operate its mines and the resulting decrease in production, the inability of the Company to ship its products to customers in the case of a partial or complete shut-down of the Port of Mobile; federal and state tax legislation; changes in interpretation or assumptions and/or updated regulatory*

guidance regarding the Tax Cuts and Jobs Act of 2017; legislation and regulations relating to the Clean Air Act and other environmental initiatives; regulatory requirements associated with federal, state and local regulatory agencies, and such agencies' authority to order temporary or permanent closure of the Company's mines; operational, logistical, geological, permit, license, labor and weather-related factors, including equipment, permitting, site access, operational risks and new technologies related to mining and labor strikes or slowdowns; the timing and impact of planned longwall moves; the Company's obligations surrounding reclamation and mine closure; inaccuracies in the Company's estimates of its met coal reserves; any projections or estimates regarding Blue Creek, including the expected returns from this project, if any, and the ability of Blue Creek to enhance the Company's portfolio of assets, the Company's expectations regarding its future tax rate as well as its ability to effectively utilize its NOLs to reduce or eliminate its cash taxes; the Company's ability to develop Blue Creek; the Company's ability to develop or acquire met coal reserves in an economically feasible manner; significant cost increases and fluctuations, and delay in the delivery of raw materials, mining equipment and purchased components; competition and foreign currency fluctuations; fluctuations in the amount of cash the Company generates from operations, including cash necessary to pay any special or quarterly dividend; the Company's ability to comply with covenants in its ABL Facility or indenture relating to its senior secured notes; integration of businesses that the Company may acquire in the future; adequate liquidity and the cost, availability and access to capital and financial markets; failure to obtain or renew surety bonds on acceptable terms, which could affect the Company's ability to secure reclamation and coal lease obligations; costs associated with litigation, including claims not yet asserted; and other factors described in the Company's Form 10-K for the year ended December 31, 2020 and other reports filed from time to time with the Securities and Exchange Commission (the "SEC"), which could cause the Company's actual results to differ materially from those contained in any forward-looking statement. The Company's filings with the SEC are available on its website at [www.warriormetcoal.com](http://www.warriormetcoal.com) and on the SEC's website at [www.sec.gov](http://www.sec.gov).

Any forward-looking statement speaks only as of the date on which it is made, and, except as required by law, the Company does not undertake any obligation to update or revise any forward-looking statement, whether as a result of new information, future events or otherwise. New factors emerge from time to time, and it is not possible for the Company to predict all such factors.

**WARRIOR MET COAL, INC.**  
**QUARTERLY SUPPLEMENTAL FINANCIAL DATA AND RECONCILIATION OF NON-GAAP FINANCIAL MEASU**  
**(Unaudited)**

**QUARTERLY SUPPLEMENTAL FINANCIAL DATA:**

	For the three months ended March 31,	
(short tons in thousands) <sup>(1)</sup>	2021	2020
Tons sold	1,952	1,81
Tons produced	2,172	2,09
Gross price realization <sup>(2)</sup>	95%	8
Average net selling price	\$ 106.04	\$ 122.0
Cash cost of sales (free-on-board port) per short ton <sup>(3)</sup>	\$ 78.64	\$ 83.0

(1) 1 short ton is equivalent to 0.907185 metric tons.

(2) For the three months ended March 31, 2021 and 2020, our gross price realization represents a volume weighted-average calculation of our daily realized price per ton based on gross sales, which excludes demurrage and other charges, as a percentage of the Platts Index.

**RECONCILIATION OF CASH COST OF SALES (FREE-ON-BOARD PORT) TO COST OF SALES REPORTED UNDER U.S. GAAP:**

(in thousands)	For the three months ended March 31,	
	2021	2020
Cost of sales	154,350	\$ 151,514
Asset retirement obligation accretion	(432)	(369)
Stock compensation expense	(422)	(449)
Cash cost of sales (free-on-board port) <sup>(3)</sup>	\$ 153,496	\$ 150,696

- (3) Cash cost of sales (free-on-board port) is based on reported cost of sales and includes items such as freight, royalties, labor, fuel and other similar production and sales cost items, and may be adjusted for other items that, pursuant to GAAP, are classified in the Condensed Statements of Operations as costs other than cost of sales, but relate directly to the costs incurred to produce met coal. Our cash cost of sales per short ton is calculated as cash cost of sales divided by the short tons sold. Cash cost of sales per short ton is a non-GAAP financial measure which is not calculated in conformity with U.S. GAAP and should be considered supplemental to, and not as a substitute or superior to financial measures calculated in conformity with GAAP. We believe cash cost of sales per ton is a useful measure of performance and we believe it aids some investors and analysts in comparing us against other companies to help analyze our current and future potential performance. Cash cost of sales per ton may not be comparable to similarly titled measures used by other companies.

## RECONCILIATION OF ADJUSTED EBITDA TO AMOUNTS REPORTED UNDER U.S. GAAP:

(in thousands)	For the three months ended March 31,	
	2021	2020
Net (loss) income	\$ (21,355)	\$ 21,545
Interest expense, net	8,693	7,533
Income tax expense	23,632	3,241
Depreciation and depletion	32,903	28,692
Asset retirement obligation accretion	805	733
Stock compensation expense	1,696	1,733
Other non-cash accretion	361	353
Other (income) expense	402	(1,804)
Adjusted EBITDA <sup>(4)</sup>	\$ 47,137	\$ 62,026
Adjusted EBITDA margin <sup>(5)</sup>	22.1%	27.4%

(4) Adjusted EBITDA is defined as net income (loss) before net interest expense, income tax expense (benefit), depreciation and depletion, non-cash asset retirement obligation accretion, non-cash stock compensation expense, other non-cash accretion and other (income) expense. Adjusted EBITDA is not a measure of financial performance in accordance with GAAP, and we believe items excluded from Adjusted EBITDA are significant to a reader in understanding and assessing our financial condition. Therefore, Adjusted EBITDA should not be considered in isolation, nor as an alternative to net (loss) income, income (loss) from operations, cash flows from operations or as a measure of our profitability, liquidity or performance under GAAP. We believe that Adjusted EBITDA presents a useful measure of our ability to incur and service debt based on ongoing operations. Furthermore, analogous measures are used by industry analysts to evaluate our operating performance. Investors should be aware that our presentation of Adjusted EBITDA may not be comparable to similarly titled measures used by other companies.

(5) Adjusted EBITDA margin is defined as Adjusted EBITDA divided by total revenues.

## RECONCILIATION OF ADJUSTED NET INCOME TO AMOUNTS REPORTED UNDER U.S. GAAP:

(in thousands, except per share amounts)	For the three months ended March 31,	
	2021	2020
Net (loss) income	\$ (21,355)	\$ 21,545
Alabama state income tax valuation allowance	24,965	—
Other (income) expense, net of tax	284	(1,568)
Adjusted net income <sup>(6)</sup>	\$ 3,894	\$ 19,977
Weighted average number of basic shares outstanding	51,274	51,106
Weighted average number of diluted shares outstanding	51,471	51,273
Adjusted basic net income per share:	\$ 0.08	\$ 0.39
Adjusted diluted net income per share:	\$ 0.08	\$ 0.39

- (6) Adjusted net income is defined as net income net of Alabama state income tax valuation allowance and other (income) expense, net of tax (based on each respective period's effective tax rate). Adjusted net income is not a measure of financial performance in accordance with GAAP, and we believe items excluded from adjusted net income are significant to the reader in understanding and assessing our results of operations. Therefore, adjusted net income should not be considered in isolation, nor as an alternative to net income under GAAP. We believe adjusted net income is a useful measure of performance and we believe it aids some investors and analysts in comparing us against other companies to help analyze our current and future potential performance. Adjusted net income may not be comparable to similarly titled measures used by other companies.

Prepaid expenses and other receivables	10,192	(235)
Accounts payable	4,964	15,614
Accrued expenses and other current liabilities	(5,463)	(3,538)
Other	6,352	2,232
Net cash provided by operating activities	45,222	21,022
INVESTING ACTIVITIES:		

Purchases of property, plant and equipment	(9,479)	(22,775)
Mine development costs	(12,333)	(3,677)
Proceeds from sale of property, plant and equipment	20	—
Other	—	6,233
Net cash used in investing activities	(21,792)	(20,219)
FINANCING ACTIVITIES:		
Net cash (used in) provided by financing activities	(13,399)	62,557
Net increase in cash and cash equivalents	10,031	63,360
Cash and cash equivalents at beginning of period	211,916	193,383
Cash and cash equivalents at end of period	\$ 221,947	\$ 256,743

#### RECONCILIATION OF FREE CASH FLOW TO AMOUNTS REPORTED UNDER U.S. GAAP:

(in thousands)	For the three months ended March 31,	
	2021	2020
Net cash provided by operating activities	\$ 45,222	\$ 21,022
Purchases of property, plant and equipment and mine development costs	(21,812)	(26,452)
Free cash flow <sup>(7)</sup>	\$ 23,410	\$ (5,430)
Free cash flow conversion <sup>(8)</sup>	49.7%	(8.8) %

(7) Free cash flow is defined as net cash provided by operating activities less purchases of property, plant and equipment and mine development costs. Free cash flow is not a measure of financial performance in accordance with GAAP, and we believe items excluded from net cash provided by operating activities are significant to the reader in understanding and assessing our results of operations. Therefore, free cash flow should not be considered in isolation, nor as an alternative to net cash provided by operating activities under GAAP. We believe free cash flow is a useful measure of performance and we believe it aids some investors and analysts in comparing us against other companies to help analyze our current and future potential performance. Free cash flow may not be comparable to similarly titled measures used by other companies.

(8) Free cash flow conversion is defined as free cash flow divided by Adjusted EBITDA.
